DETAILED ACTION

The Priority Papers were received on December 4, 2001 and the Preliminary Amendment was received on March 8, 2002.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Panagin (US 4,353,313).

Panagin discloses a structure for a rail car body and a method of manufacturing the body. The body comprising a first plate 30 with first and second flanges 100a, 102a, a recessed portion and a bottom flange 102b. A second plate having third and fourth flanges 104b, 106a and a bottom flange 106b positioned below a recess on the second plate. The flanges are positioned orthogonal to each other as shown in figures 6 and 7 so that they can be welded together. The flanges are made from bending out the edges of the recess on the extruded plates. The flanges are then welded together at the center to form the structural element of the car body.
